

## Preparing for the Master Electrician Examination

### Scheduling your study time

- Study early. It is suggested that arranging your study time into shorter sessions over a period of time proves to be far more valuable than cramming all the material into closely spaced and lengthy study intervals.
- Maintain a regular study schedule
- Set specific study goals
- Take breaks between study sessions, more complicated, and difficult subjects will require many frequent breaks
- Begin each study session with a short review of the previously studied material

### Organizing your materials for an open book examination

- Open book examinations require ample preparation in order to understand and familiarize one self with the material
- Preparation allows for better organization, and will assist when searching for information during the examination
- Be sure to tab, or colour code information that is relevant to the examination
- Utilize your codebook to make notes, or expand on concepts or words which you might not understand
- Be sure to go over relevant legislation
